Teamwork

The Five Disciplines of Aligned Teams

Teamwork framework · five disciplines

Get every team pulling the same way. Five repeatable disciplines that turn a group of people into a team that delivers.

WHAT THE ROOM LEAVES WITH

01 **Understand Generations**
Lead effectively across a multi-generational team.

02 **Manage to the One**
Tailor leadership to each individual rather than to the average.

03 **Speed Productivity**
Get new members contributing faster.

04 **Challenge Everything**
Encourage healthy debate, and better ideas with it.

05 **Focus on Customers**
Keep the team aligned around who they serve.

WHY IT LANDS

Most teams do not fail from lack of effort. They fail from lack of alignment. The five disciplines come out of the research behind *The Orange Revolution* and *The Best Team Wins*.

WHO IT IS FOR

Teams with new members, several generations or competing priorities; matrixed organizations; and companies bringing teams together after a reorganization.

> *"Folks throughout our organization are still raving about Chester. The leadership content really resonated — that says a lot for such a quiet and cynical crowd."*
